

Even though 2009 started on very rough and difficult times due to the recession and economy I still believe 2009 will be an awesome year.

"For those who believe and have faith in God."

In spite of the bad economy PDS has added Consultants to the company at the Durban branch and will also be expanding in Gauteng.

I 'am grateful for the clients that have supported PDS through the years and still continue to do so. The future looks good for those who dare to believe.

Motivated people are achievers. We can, we will and we shall win!

Petro Fick, Managing Director.
